Gary Hardwick

Gary is a Health & Safety professional and has worked in the field of construction health, safety, environmental and risk management for 8 years. Prior to this, he spent 24 years in the Parachute Regiment completing his service as a Warrant Officer Class 2.

During Gary's' meteoric rise in the safety profession, he has gained experience spanning many industry sectors with him working for both a major Cost Consultancy and Project Management Organisation & as a member of the Main Contracts Group (UK CG). This has led him to work on variety £ multimillion projects from Rail and British Waterways contracts, Petro-Chemical maintenance contract, HMP (Lindholme Prison), Highways Maintenance, High street bank refurbishments, Petrol station refurbishments & House building.

Gary currently performs the role of Site Health & Safety Manager on Capital Projects which has seen him working on Heathrow T2 re-build, Shard & Bankside redevelopment (London). He is currently part of the safety team permanently residing at the Blackfriars Bridge refurbishment in London
